

JAMDAGNI PUBLIC SCHOOL

Report on Cyber Security Awareness Activity

Date - 29 July 2026

As per CBSE circular, A Cyber Security Awareness Activity was conducted for the students of primary class in the Computer Lab. The session aimed to make students aware of safe and responsible use of the Internet and digital devices.

The students were shown an engaging PowerPoint presentation on Cyber Security by the teacher. Through colourful slides and simple examples, they learned about the importance of keeping personal information private, creating strong passwords, identifying safe and unsafe websites, avoiding strangers online, and seeking help from parents or teachers whenever they encounter anything suspicious on the Internet.

The interactive session encouraged students to ask questions and share their experiences related to using mobile phones, computers, and the Internet. The students participated enthusiastically and understood the basic rules of staying safe in the digital world.

The activity was informative, enjoyable, and successful in creating awareness among young learners about cyber safety and responsible online behaviour.
